

Letter of Recommendation

July 1st, 2026

To whom this may concern,

It is my distinct pleasure to write this letter of recommendation for Yulin Chen. Having worked closely alongside Yulin, I have witnessed firsthand her exceptional capabilities as both a Data Analyst and an SEO Specialist during her tenure at CHC Constant Home Comfort. She is a rare professional who not only understands numbers but excels at translating them into actionable, high-impact strategies.

During her time at CHC, Yulin demonstrated an incredible knack for driving digital growth and optimization. What truly sets her apart is her inherently analytical mindset—she doesn't just report on data; she digs deep to uncover the "why" behind it. Yulin consistently brought insightful, fresh perspectives to the table, offering creative solutions to complex problems and showcasing a natural ability to improve key performance metrics across the board.

Her innovative approach to content and technical strategy was perfectly exemplified by a major initiative she spearheaded: creating and uploading a plethora of educational vlogs focusing on HVAC efficiencies. Yulin recognized that educated clients make empowered decisions. By breaking down complex energy-efficiency concepts into engaging, digestible video content, she significantly boosted user engagement, enhanced organic reach, and established a higher standard of client trust.

Beyond her excellent work at CHC, I had the privilege of collaborating with Yulin on a past data-driven project for L'Oréal. Throughout that collaboration, her strategic insights were invaluable. She possesses a unique talent for looking at a dataset and instantly spotting hidden trends, allowing us to pivot our strategy effectively and maximize the project's overall impact.

Yulin is a collaborative, forward-thinking, and deeply dedicated professional. She brings energy, sharp analytical skills, and a strategic SEO mindset to any team she joins. I have no doubt that she will be an invaluable asset to your organization, and I recommend her without any reservation and welcome any questions.

Sincerely,
