

Letter of Recommendation

Date: June 29, 2026

To Whom It May Concern,

It is a pleasure to write this letter of recommendation for **Linda Chen**. I worked closely with Linda at **Constant Home Comfort** in my role as Marketing Coordinator. During our time together, Linda served as our **Data Analyst / SEO Specialist**, where she consistently proved to be an invaluable asset to our team.

Linda is an ethical, hardworking, and highly professional colleague. She is exceptionally organized, always planning ahead by creating structured marketing plans and detailed calendar schedules. Her attention to detail is sharp; she doesn't just execute tasks, but actively looks for ways to improve processes and suggests smarter ways to hit goals. Furthermore, she is completely reliable and consistently completes her deliverables ahead of schedule.

What truly sets Linda apart is her ability to ground SEO and marketing strategy in hard data rather than gut feelings. She has a strong technical toolkit, including building Tableau dashboards and using SQL and Python for deep project analysis. More importantly, she has a talent for translating these complex data points into clear, actionable insights that non-technical team members can easily understand and act upon.

A specific example of her impact was when she took the initiative to run a comprehensive, multi-month SEO and data audit across our brands. Linda self-directed the entire project while managing her daily workload seamlessly. Instead of relying on generic optimization checklists, she used Google Search Console data to uncover deep, structural insights. Her findings gave us a clear roadmap to overhaul our content strategy, resulting in a measurable, sustained lift in our organic search performance.

Linda's commitment to her field is also evident in her continuous learning, holding **Google certifications** in **Data Analytics**, **Advanced Data Analytics**, and **Business Intelligence**. She is a self-directed professional who thrives when handling multiple projects simultaneously.

Linda has my highest recommendation. She will bring data-driven clarity, efficiency, and a fantastic work ethic to any team. Please feel free to reach out if you need any further information.

Sincerely,

Abdullah Yildiz
Marketing Coordinator
